

# St Mary's RC Primary School

## Covid-19 Risk Assessment

**Service and location**

CAF XXXXXXXXX

**Work activity:**

School operations

**Date of assessment**

02.07.20

**Review Date**28.08.20 30.10.20  
05.01.21 28.02.21  
14.04.21 31.08.21**Name of Assessor and position**

Heather Taylor (H&amp;S Officer)

**Approved by (Service Manager)**

Steve Horne/Joseph Wheatley

**Consultation**

Caroline O'Neill/ Steve Horne/Procurement/Public Health/HR/Unions (NEU, Unison, NASUWT, GMB, NAHT, Unite, Voice the Union, ASCL).

**Reference Number**

**This risk assessment must be regularly reviewed and updated as necessary. The reviewed risk assessment must be shared with all staff, including any relevant updated guidance to support the risk assessment.**

- The risk assessment is specific to control measures in place relating to COVID-19 and must be used in conjunction with relevant risk assessments. For the purposes of this risk assessment children and young people are referred to as pupils, and employees include volunteers.

This version has been reviewed taking into account current national guidance.

**In the event of an outbreak, Public health/HPT advice and the setting's outbreak control plan must be followed.**

Point	Content	Page	Point	Content	Page
1	Contact between individuals		15	Practical classes and activities	
2	Vulnerable employees and pupils		16	Use of transport	
3	Suspected/confirmed/asymptomatic cases of COVID-19		17	Home visits	
4	COVID-19 outbreak		18	Educational visits	
5	Inadequate ventilation		19	Lack of communication/information	
6	Poor personal hygiene practices		20	Vaccinations	
7	Alcohol based hand sanitiser		21	Complacency/not following control measures	
8	Cleaning practices		22	First aid arrangements	
9	Shared/personal equipment		23	Lack of monitoring/management	
10	Extra-curricular activities/clubs/ wrap around care provision.		24	Home working	
11	Working with SEND children		25	Long COVID	
12	Unsafe/violent/aggressive behaviour		26	Anxiety/depression/other MH conditions	
13	Incorrect use/lack of PPE		27	Aerosol generating procedures	
14	Use of face coverings				

What are the hazards?	Who might be harmed and how?	What are you doing already?	What further action is needed?	Action by whom	Action by when	Done
1. 3. Suspected/ confirmed/ asymptomatic cases of COVID-19 (continued)		<p><a href="https://intranet.gateshead.gov.uk/article/15052/HR-Coronavirus-advice">https://intranet.gateshead.gov.uk/article/15052/HR-Coronavirus-advice</a>.</p> <ul style="list-style-type: none"> <li>If a <b>visitor</b> develops symptoms whilst at school they inform a member of SLT staff and leave site immediately to self-isolate.</li> <li>If a <b>pupil develops symptoms</b> whilst at school, the pupil is isolated and leaves site as soon as possible to self-isolate. Parents/carers are advised that the pupil has a PCR test and if positive they follow self-isolation guidance at <a href="https://www.nhs.uk/conditions/coronavirus-covid-19/self-isolation-and-treatment/when-to-self-isolate-and-what-to-do/">https://www.nhs.uk/conditions/coronavirus-covid-19/self-isolation-and-treatment/when-to-self-isolate-and-what-to-do/</a></li> </ul> <p><b>Isolation on school premises.</b></p> <ul style="list-style-type: none"> <li>Pupil is self-isolated in a designated room behind a closed door, with a window open (where possible), minimal furniture which is readily cleanable with supervision by a member of staff if required.</li> <li>If it is not possible to isolate the pupil, they are moved to an area at least 2m away from other people.</li> <li>Isolation room has minimal furniture which is readily cleanable.</li> <li>Symptomatic staff/pupils use a separate toilet if this is needed before leaving the premises. This room is cleaned and disinfected before being used by anyone else.</li> </ul> <p><b>Supporting a symptomatic pupil:</b></p> <ul style="list-style-type: none"> <li>Social distancing is maintained wherever possible however if staff are required to be within 2m of the pupil they wear PPE in accordance with the table in Appendix 2.</li> <li>Any member(s) of staff that have been supporting a symptomatic pupil wash their hands thoroughly for 20 seconds after contact with them using the nearest facilities.</li> <li>Any surfaces that have been touched en- route are cleaned and disinfected.</li> </ul>				

What are the hazards?	Who might be harmed and how?	What are you doing already?	What further action is needed?	Action by whom	Action by when	Done
3 Suspected/ confirmed/ asymptomatic cases of COVID-19 (continued).		<ul style="list-style-type: none"> <li>• Staff are advised to ensure that wherever possible after providing close care to a pupil exhibiting symptoms of COVID-19 their work clothing is: -</li> <li>- Changed after providing care and transported home in a tied plastic bag.</li> <li>- Laundered in a load not more than half the machine capacity.</li> <li>- Not shaken before washing.</li> <li>- Washed at the maximum temperature the fabric can tolerate.</li> </ul> <p><b>Home PCR testing kits</b></p> <ul style="list-style-type: none"> <li>• Home PCR testing kit is offered to employee or parent/carer of pupil who develops symptoms on site where it is believed that providing one will increase the likelihood of PCR testing.</li> <li>• Supplies of home PCR testing kits are replenished if required. (Replacement test kits can be ordered at <a href="https://request-testing.test-for-coronavirus.service.gov.uk/">https://request-testing.test-for-coronavirus.service.gov.uk/</a>)</li> </ul> <p><b>Transporting a pupil with COVID-19 symptoms/ who has tested positive on site where onsite testing is taking place.</b></p> <ul style="list-style-type: none"> <li>• Pupils are collected by parents/carers wherever possible.</li> <li>• Where parents/carers cannot collect and home to school transport arrangements are in place, staff liaise with the Travel Care team to arrange collection for the pupil.</li> <li>• As a last resort and only in exceptional circumstances, where the pupil has to be taken home by a member of staff:-</li> <li>- Where possible use a vehicle with a bulkhead or partition that separates the driver and escort from the pupil, or a minibus.</li> <li>- Driver and escort to maintain at least 2m distance from the pupil and where possible from each other</li> <li>- Driver and escort to wear a fluid repellent face mask (minimum Type IIR standard) and pupil to also wear a face mask (Type IIR standard) if they are old enough and able to.</li> </ul>				

What are the hazards?	Who might be harmed and how?	What are you doing already?	What further action is needed?	Action by whom	Action by when	Done
3. Suspected/ confirmed/ asymptomatic cases of COVID-19 (continued).		<p><b>Cleaning areas where a symptomatic person or person who has tested positive for COVID-19 has been:</b></p> <ul style="list-style-type: none"> <li>• Clear documented procedures are in place with regard to cleaning for:               <ol style="list-style-type: none"> <li>1. An area(s) where there has been a symptomatic person present.</li> <li>2. When a person has developed symptoms off site but has been in school.</li> <li>3. When a person has tested positive.</li> </ol> </li> <li>• If an area where a symptomatic person has been cannot be immediately cleaned, it is taken out of use until it can be cleaned.</li> <li>• Building Cleaning provider/Area Supervisor is notified as soon as possible to inform them if there has been a symptomatic or confirmed case of COVID-19 on site.</li> <li>• Public areas where a symptomatic person has passed through and spent minimal time (e.g. corridors) and are not visibly contaminated with body fluids are cleaned thoroughly as normal with usual cleaning products.</li> <li>• All surfaces that the symptomatic person has come into contact are cleaned and disinfected, including:               <ul style="list-style-type: none"> <li>– objects which are visibly contaminated with body fluids.</li> <li>– all potentially contaminated high-contact areas such as toilets, door handles, telephones, grab-rails in corridors and stairwells.</li> </ul> </li> <li>• PPE for cleaning areas where there has been a suspected/confirmed case of COVID-19 is worn in accordance with the PPE table in Appendix 2.</li> <li>• Disposable cloths or paper roll and disposable mop heads are used to clean all hard surfaces, floors, chairs, door handles and sanitary fitting using either:-</li> </ul>				

What are the hazards?	Who might be harmed and how?	What are you doing already?	What further action is needed?	Action by whom	Action by when	Done
3. Suspected/ confirmed/ asymptomatic cases of COVID-19 (continued).		<ul style="list-style-type: none"> <li>• a combined detergent disinfectant solution at a dilution of 1,000 parts per million available chlorine <b>or</b></li> <li>• a household detergent followed by disinfection (1000 ppm av.cl.). <b>or</b></li> <li>• A disinfectant that is effective against enveloped viruses.</li>   <li>• Creating splashes and spray is avoided when cleaning.</li> <li>• Cloths and mop heads used are disposed of as single use items.</li> <li>• When items cannot be cleaned using detergents or laundered, for example, upholstered furniture and mattresses, steam cleaning should be used.</li> <li>• Any items that are heavily contaminated with body fluids and cannot be cleaned by washing are disposed of.</li>   <li><b>Waste from a symptomatic person/confirmed case:</b></li> <li>• Waste from the person and from cleaning of areas where they have been (including disposable cloths and tissues) and used PPE is:- <ul style="list-style-type: none"> <li>– Double bagged (placed in a plastic rubbish bag and tied then placed in a second bn bag and tied),</li> <li>– Tagged with the date and time and stored in a secure area for at least 72 hours</li> <li>– Disposed of in the normal waste bin or clinical waste bin if there is a clinical waste contract in place.</li> </ul> </li> </ul>				
4. COVID-19 outbreak	Employees, pupils, visitors, contractors, family members	<ul style="list-style-type: none"> <li>• <b>In the event of an outbreak Public Health advice and the setting's outbreak management plan will be followed.</b></li> </ul>				

What are the hazards?	Who might be harmed and how?	What are you doing already?	What further action is needed?	Action by whom	Action by when	Done
	Exposure to coronavirus (SARS-CoV-2), Transmission of COVID-19, illness death					
5. Inadequate ventilation	Employees, pupils, visitors, contractors, family members.  Exposure to coronavirus (SARS-CoV-2), Transmission of COVID-19, illness death	<ul style="list-style-type: none"> <li>School is kept well-ventilated whilst ensuring occupants are comfortable by following guidance in Appendix 3.</li> <li>Checklist in Appendix 4 is completed for each occupied room and appropriate action taken where issues are identified.</li> <li>Additional use is made of on site outdoor learning spaces and open air structures.</li> <li>Internal fire doors which need to be held open for ventilation purposes are fitted with a suitable British Standard hold open device which closes the door on activation of the fire alarm. (HSB 09 specific fire risk assessment review- <a href="https://intranet.gateshead.gov.uk/media/19597/HSB09-COVID-19-Specific-Fire-Risk-Assessment-review/pdf/COVID19SpecificFRARReview.pdf?m=637268719043830000">https://intranet.gateshead.gov.uk/media/19597/HSB09-COVID-19-Specific-Fire-Risk-Assessment-review/pdf/COVID19SpecificFRARReview.pdf?m=637268719043830000</a>)</li> </ul>	<ul style="list-style-type: none"> <li>Appropriate action to be taken in line with guidance provided once CO<sub>2</sub> monitors are received and installed</li> </ul>	Head teacher/ H&S team/ HEHC		
6. Poor personal hygiene practices.  (see section 3 for cleaning areas/equipment in contact with a symptomatic person).	Employees, pupils, visitors, contractors, family members.  Exposure to coronavirus (SARS-CoV-2), Transmission of COVID-19, illness death, skin irritation, dermatitis.	<b>General good hygiene practices:-</b> <ul style="list-style-type: none"> <li>Public Health England hand hygiene and general good hygiene practices are followed by employees including :-</li> <li>Sneezing into tissues/elbow and binning them ('Catch it, bin it, kill it')</li> <li>Avoiding touching face, eyes, nose or mouth.</li> <li>Staff support/supervise pupils to follow the above guidance as much as possible. Games, repetition, class rules and posters are used as appropriate to encourage pupils to practise these habits.</li> </ul>	<ul style="list-style-type: none"> <li>Parents and carers to be reminded of PHE good hygiene practices and asked to reinforce these with children at home.</li> </ul>			

What are the hazards?	Who might be harmed and how?	What are you doing already?	What further action is needed?	Action by whom	Action by when	Done
<p>6. Poor personal hygiene practices.</p> <p>(see section 3 for cleaning areas/equipment in contact with a symptomatic person).</p>		<ul style="list-style-type: none"> <li>Individual risk assessment is carried out for pupils who are unable to maintain respiratory hygiene (e.g. who spit uncontrollably or use saliva as a stimulant (see section 8)).</li> <li>Pedal operated lidded waste bins are provided where possible.</li> <li>Visitors are asked to observe good hygiene practices including regular hand washing whilst in the building.</li> </ul> <p><b>Hand washing</b></p> <p>Employees follow good hand washing practices:-</p> <ul style="list-style-type: none"> <li>Washing/sanitising hands for at least 20 seconds on arrival in line with guidance on posters, before leaving, before and after eating after sneezing and coughing, after using the toilet and regularly throughout the day.</li> <li>Thoroughly drying hands after washing</li> <li>Where a sink is not nearby, hand sanitiser (at least 60% alcohol) is provided and used as necessary across the school and is closely supervised.</li> </ul> <p><b>Hand sanitiser is not used as a substitute for thorough hand washing with soap and water where this can be safely and readily achieved.</b> Guidance in Appendix 4 is followed in relation to the use of hand sanitiser.</p> <ul style="list-style-type: none"> <li>Laminated hand washing technique posters are displayed adjacent to all wash basins and laminated hand sanitiser technique posters are displayed adjacent to all hand sanitiser dispensers.</li> <li>Cleaning supplies and hand sanitiser are available in each room as necessary including areas containing shared highly used equipment e.g., photocopiers, printers etc.</li> <li>Staff are provided with their own hand sanitiser to be carried around with them where required.</li> </ul>				

What are the hazards?	Who might be harmed and how?	What are you doing already?	What further action is needed?	Action by whom	Action by when	Done
		<p><b>Skin irritation</b></p> <ul style="list-style-type: none"> <li>• Pump action moisturiser is provided for hands (no direct shared contact with cream)</li> <li>• Employees and pupils have been asked to report any issues with hand irritation. Employees routinely check pupils' hands. Advice is sought from Occupational Health (for employees)/ School Nursing Team (for pupils) or from medical practitioner if required and advice followed.</li> </ul>				
7. Alcohol based hand sanitiser	<p>Employees, pupils, visitors, contractors.</p> <p>Ingestion, Exposure to fire, burns, scalds, smoke inhalation, etc.</p> <p>(see section 3 re: hand irritation)</p>	<ul style="list-style-type: none"> <li>• Hand sanitiser is not used as a substitute for hand washing where hand washing is practical and facilities are in a suitable location.</li> <li>• Hand sanitiser is a minimum of 60% alcohol and is used in accordance with Appendix 4.</li> <li>• Hand sanitiser is procured in suitable receptacles provided with their own hand santiser to be carried around with them where required.</li> <li>• Use of hand sanitiser is supervised as necessary, and it is stored in a safe and secure location when not in use.</li> <li>• Unsupervised dispensers (including wall mounted dispensers) are not used where there is a likelihood of ingestion of sanitiser/ wilful misuse by pupils.</li> <li>• Sanitiser dispensers are stored away from heat sources, sources of ignition and out of direct sunlight.</li> <li>• Alcohol based hand sanitiser is not used in rooms where there is already a risk of fire (e.g. science labs).</li> <li>• Stock to be stored in a locked fire-resistant cabinet where it cannot be accessed by pupils.</li> <li>• Employees have been advised to let their hands dry and the vapours disperse before the following:- <ul style="list-style-type: none"> <li>– Smoking or being near a naked flame (e.g. match / lighter).</li> </ul> </li> </ul>				

What are the hazards?	Who might be harmed and how?	What are you doing already?	What further action is needed?	Action by whom	Action by when	Done
		<ul style="list-style-type: none"> <li>- Using an electrical switch or item of electrical equipment, including an electrically powered medical device;</li> <li>- Using oxygen or a medical device involving oxygen;</li> <li>- Handling a pupil or clothing if the pupil is receiving oxygen</li> </ul>				
8. Cleaning practices	Employees, pupils, visitors, contractors, family members. Exposure to coronavirus (SARS-CoV-2), Transmission of COVID-19, illness death	<p><b>Cleaning</b></p> <ul style="list-style-type: none"> <li>• Cleaning of surfaces and equipment is in accordance with the <b>COVID-19 status document</b>.</li> <li>• Arrangements and a cleaning schedule are in place with assigned roles to ensure that additional cleaning is taking place as required.</li> <li>• Clear documented cleaning procedures are in place which include how to make up the cleaning chemical (in real terms not just dilution factor and contact time).</li> <li>• Cleaning procedures are clearly displayed in the cleaning store and all relevant staff are made aware of this</li> <li>• Manufacturer’s instructions for dilution, application and contact times for all detergents and disinfectants are followed at all times</li> <li>• Work areas are kept clean and bins for tissues are emptied regularly throughout the day.</li> <li>• Areas are kept tidy and surfaces clear as much as possible to enable effective cleaning to be carried out.</li> <li>• Each occupied room is thoroughly cleaned at the end of each day.</li> <li>• Additional cleaning of nearby surfaces and equipment takes place where a pupil is known to spit and additional space allocated to that pupil wherever possible.</li> <li>• Suitable arrangements are in place for cleaning of specialist equipment.</li> </ul>	<ul style="list-style-type: none"> <li>• Identify areas where touching of surfaces can be reduced e.g. by holding doors open (fire doors are only held open in accordance with HSB 09)</li> </ul>	Head teacher		

What are the hazards?	Who might be harmed and how?	What are you doing already?	What further action is needed?	Action by whom	Action by when	Done
<p>9. Shared/personal equipment</p> <p>9. Shared/personal equipment</p>	<p>Employees, pupils, visitors, contractors, family members.</p> <p>Exposure to coronavirus (SARS-CoV-2), Transmission of COVID-19, illness death</p>	<p><b>Shared/personal equipment:-</b></p> <ul style="list-style-type: none"> <li>Sharing of personal items is avoided wherever possible.</li> <li>Pupils provide their own water bottle/ their own labelled water bottle is provided for them.</li> <li>Drinking fountains are not in use</li> </ul> <p><b>Sharing of ‘messy play’ resources e.g. sand, water and use of playdough.</b></p> <p>Pupils are closely supervised when using these resources and the following control measures are in place:-</p> <ul style="list-style-type: none"> <li>Pupils wash hands before and after using these resources.</li> <li>Equipment used with these resources is regularly cleaned.</li> <li>Pupils are regularly reminded not to touch their face when using these resources.</li> <li>Water and playdough are changed at least on a daily/sessional basis when groups change.</li> </ul>				
<p>10. Extra-curricular activities/clubs/ wrap around care provision.</p>	<p>Employees, pupils, visitors, contractors, family members.</p> <p>Exposure to coronavirus (SARS-CoV-2), Transmission of COVID-19, illness death.</p>	<p><b>Additional measures</b></p> <ul style="list-style-type: none"> <li>Extra-curricular activities/clubs/ wrap around care provision and sporting activities/competitions are held in accordance with the <b>COVID-19 status document</b></li> <li>Arrangements are in place to ensure appropriate cleaning of areas/equipment takes place as necessary after all extra-curricular activities.</li> <li>A register is kept of all attendees and who is in which group.</li> </ul> <p><b>External providers - additional measures</b></p> <ul style="list-style-type: none"> <li>Head teacher liaises with providers of extra-curricular activities/contracted wrap around care provision to ensure they have appropriate COVID-19 arrangements in place (including cleaning and transport and a COVID-19 risk assessment in place.</li> </ul>				

What are the hazards?	Who might be harmed and how?	What are you doing already?	What further action is needed?	Action by whom	Action by when	Done
.		<ul style="list-style-type: none"> <li>External providers on school premises have been made aware of and follow school COVID-19 expectations and operating procedures.</li> <li>External providers are aware to inform the school immediately if they/ any pupil is exhibiting symptoms of COVID-19 whilst on site and ASAP if they become symptomatic or test positive for COVID-19.</li> </ul>				
11. Working with SEND children	<p>Employees, pupils, visitors, contractors, family members.</p> <p>Spitting, biting, contact with bodily fluids due to sensory issues. ## Appendix 1: COVID-19 – PPE for educational settings staff

Task	Single use disposable gloves	Single use disposable plastic apron	Fluid repellent (Type IIR) surgical mask)	Eye protection (goggles or visor)
* Supporting a person who is symptomatic/ confirmed to have COVID-19.				
* <b>Cleaning</b> an area/equipment that has been in contact with a symptomatic person where there are <b>no</b> visible body fluids.				
* <b>Cleaning</b> an area/equipment that has been in contact with a symptomatic person where there <b>is</b> visible body fluid.				
* <b>First aid</b> duties				 If there is a risk of splashes or droplets of blood/body fluids
* When providing <b>intimate care</b> – contact with body fluids				
* If required in a <b>pupil's individual risk assessment</b>	<b>Wear PPE as detailed in the risk assessment</b>			
* Working in <b>unavoidable prolonged close contact with another adult</b> (e.g. during positive handling if safe and possible to do so)				
* Carrying out <b>aerosol generating procedures (AGPs)</b> (complex medical procedures – <b>contact your H&amp;S officer if doing these</b> ).		 Long sleeved apron or coveralls for AGPs	 FFP3 face fitted mask (not IIR surgical mask for AGPs).	

# St Mary's RC Primary School

## Covid-19 Risk Assessment

---

### **Appendix 2: Ventilation guidance**

1. Identify areas that are stuffy or smell badly which indicates there is poor ventilation and address these as a matter of priority. **Areas without an adequate means of ventilation (openable window or mechanical ventilation) must be avoided at this time.**
2. If it's windy, cold or raining then it may not be practical to fully open the windows/vents. Open them as far as possible to provide constant background ventilation, without causing discomfort (the temperature must always be above the minimum workplace temperature of 16°C). Any local chilling effect should be offset by partially opening the windows nearest to and above the radiators.
3. **Open high-level windows** in rooms where possible (and safe to do so). Incoming air will be warmed as it flows down into the room which will reduce cold draughts.
4. **Opening trickle vents and propping open doors** that are not fire doors/holding open fire doors on an appropriate device can also assist with ventilation if required.
5. Achieving fresh air by having several windows partially opened as required rather than one window fully open can help to maximise the use of window driven natural ventilation distribution across the room without causing discomfort.
6. Windows should be **opened more fully at break times and lunchtimes** to purge the air in the space.
7. At the end of each school day windows should be opened (as wide as is practical and safe, also considering security issues to ventilate the room fully. If possible, they should also be opened at least 15 minutes before a room is occupied.
8. Ensure all windows are appropriately restricted where there is a risk of falls from height (pay particular attention to windows that are not usually opened).
9. In the acknowledgement that the school still needs to be well ventilated, school and staff **uniform expectations should be relaxed** as necessary to ensure they are able to wear additional/ warmer indoor clothing. Also consider the seating plan and moving children who feel the cold more to a different position in the classroom.
10. Heating should be used/increased as necessary to maintain a comfortable learning/working environment.
11. Fans can be used to improve circulation in a particular area of the room but **only** if there is good ventilation in the room.
12. If you have a centralised ventilation system that removes and circulates air to different rooms (rather than having units which operate independently in each room) it is recommended that you turn off recirculation and use a fresh air supply.
13. If you have separate units in each room which operate separately and only recirculate the air in the rooms they're in, these do not need to be adjusted as they operate on 100% recirculation within that room. You still need to have an outdoor air supply into these rooms though e.g. from having a window open or the area is likely to be poorly ventilated. (recirculation units can mask poor ventilation).
14. If you're not sure which type of system you have, contact the company who service the units for further advice.

15. Ensure that all mechanical ventilation systems are being serviced and maintained in accordance with the manufacturer's instructions.

## Appendix 3: Basic Ventilation checklist

### Appendix 3: Basic Ventilation checklist

#### Notes for the form

- **Ventilation remains a key control measure** in reducing the risk of COVID-19 transmission.
- Whilst the checklist below does not provide a definitive measure of the adequacy of ventilation in the room, these are items which need to be checked and as necessary as a matter of priority.
- Where issues are identified, they should be addressed as necessary **if safe to do (considering for example asbestos or work at height)** to achieve effective ventilation/ ensure safety as much as possible.
- If you have any queries about the checks below please contact Liam Williams [liamwilliams@gateshead.gov.uk](mailto:liamwilliams@gateshead.gov.uk) for points 1- 9 or for other queries contact your setting's H&S officer (Heather Taylor 433 2236, Lorraine Dixon 433 2237 or Dasha Kormilkina 433 2270).

<b>Room name/no</b>		<b>Location:</b>	
<b>Inspected by:</b>		<b>Date:</b>	

Indicator	Yes/ No/ NA	Comment/details	Action required	Completed by and date
1. Do any areas feel stuffy or smell badly?				
<b>Mechanical ventilation (air conditioning units etc)</b>				
2. Are air conditioning units in the room stand-alone units? *If yes is there also an opening window?				
3. Are air conditioning units in the room part of a centralised ventilation system? If yes has recirculation been turned off? *				
4. Has the air condition unit(s) been serviced by a competent person within the last 14 months?				
<b>Natural ventilation – (windows, doors, trickle vents, air bricks etc)</b>				
5. Are enough windows able to be safely opened (particularly windows at high level in the room) and do they stay open?				
6. Are any airbricks blocked?				
7. Do ventilation grids appear to be dirty or blocked?				
8. Are trickle vents opened?				
9. Are any of the above blocked by furniture, curtains or other items?				
10. Is the room door(s) able to be held open? Where any doors are fire doors are these held on devices that will close the door when the fire alarm sounds?				

11. Are windows suitably restricted where there is a risk of falls from height from the window?

## Covid-19 Risk Assessment

### Appendix 4: Hand sanitiser and hand washing

- Hand washing is for at least 20 seconds and following good hand washing techniques (see attached poster)
- Alcohol based hand sanitiser is not to be used as a substitute for handwashing with soap and water where handwashing can be safely and effectively managed (steps should be taken to try and achieve this through staggered timings etc).
- Where hands are not visibly clean (e.g. after playing outdoors) hands are washed with soap and water.
- In other circumstances where hands are visibly clean and hand washing cannot be safely and effectively managed, hand sanitiser can be used as an alternative.
- Hand sanitiser must be at least 60% alcohol.
- Effective hand sanitising techniques must still be followed when using hand sanitiser (see attached poster).
- Hands should be thoroughly dried after hand washing, and alcohol based hand sanitiser left to dry after use before carrying out any other activities.
- As a longer term measure, consider the installation of additional handwashing facilities in classrooms or outside to enable handwashing to be safely and effectively achieved.

### Best Practice: How to handrub step by step images
